SUPPLEMENT
TO THE
LONDON GAZETTE of AUGUST 9,

Cumberland Lodge, Windsor Park,
August 12, 1872.

HER Royal Highness The Princess Helena, third Daughter of Her Majesty the Queen (Princess Christian of Schleswig-Holstein), was safely delivered of a Princess this day at half-past twelve o'clock P.M.

His Royal Highness The Prince Christian was present.

Mr. Secretary Cardwell was in attendance.

FROM THE
LONDON GAZETTE of AUGUST 13,
1872.

Her Majesty's Most Gracious Speech, delivered by the Lords Commissioners to both Houses of Parliament, on Saturday, August 10, 1872.

My Lords and Gentlemen,

THE time has now arrived when you may properly relinquish the performance of your arduous duties for a term of repose which has been honourably earned by your devoted assiduity.

I rejoice to inform you that the controversy

which had arisen between my Government and the Government of the United States, in consequence of the presentation of the American claims for indirect losses under the Treaty of Washington, has been composed by a spontaneous declaration of the arbitrators, entirely consistent with the views which I announced to you at the opening of the session. In concurrence with your action on the part of the United Kingdom, the Parliament of Canada has passed the Acts necessary to give effect to the Treaty within the dominion. All the arrangements contemplated by that instrument are, therefore, now in progress : and I reflect with satisfaction that the subjects with which it has dealt no longer offer any impediment to a perfect concord between two kindred nations.

Since I addressed you at the commencement of the session, I have received from the Government of France the formal notice which would bring to an end the Commercial Treaty of 1860. The Government, however, has indicated a desire for further communications. In any correspondence on this subject I shall be guided by an earnest anxiety to secure attention to the just claims of my subjects, by the friendly feeling which has so long united the two countries, and by my conviction of the moral, as well as material benefits to be derived by each from a free intercourse between them.

I have had great satisfaction in concluding with the Emperor of Germany a treaty, in conformity with the provisions of the Act of 1870, for the mutual surrender of fugitive criminals. I am engaged in framing similar arrangements with other Powers.

My Government has taken steps intended to prepare the way for dealing more effectually with the slave trade on the east coast of Africa.

I have cheerfully given my assent to an Act of the Legislature of the Cape Colony, for the establishment in that colony of what is now generally known as responsible government.

Gentlemen of the House of Commons,

My acknowledgments are due to you for the ample provision which you have made for the varied exigencies of the public service.

My Lords and Gentlemen,

Although the wants and expectations of the country seems to outstrip every effort of Parliament in its career of legislative improvement, I notice with satisfaction the main additions which you have been enabled to make during the present year to our laws.

The Act having reference to outrages upon natives in the islands of the Pacific is well designed, by providing for the more easy and effectual prevention and punishment of the offences at which it is aimed, to promote the ends of humanity and the honour of the Empire.

The Act for the localisation of the army, while it strengthens the defensive system of the country, will lend an indispensable aid in effecting those important reforms which have been approved by Parliament.

The Act which establishes the Ballot will assist to secure alike the independence of the voter and the tranquillity and purity of elections for members to serve in Parliament.

Although you have been unable, during the present session, to mature any measure directed against corrupt practices in the choice of Members of Parliament, I observe with pleasure that the cognate subject of municipal elections has had your attention, and that you have presented to me

a law which is well calculated to check existing evils, and which provides a tribunal for trying the validity of such elections.

By the Scottish Education Act you have made provision for the further extension and greater efficacy of the training of the young throughout Scotland, in accordance with the conscientious and deep-rooted convictions of the people, and with the principles of religious freedom.

The Act for establishing a Board of Local Government in Ireland, modelled on the English statute of 1871, supplies a machinery for giving effect to many useful laws, and promises to extend within that portion of the United Kingdom the solid benefits of popular local institutions.

The measure for the amendment of the Act of Uniformity, based as it is upon careful inquiry and on a large amount of ascertained consent, has without offence or shock, introduced useful modification into an ancient system of Divine worship, to which a large portion of my people are warmly attached.

The Public Health Act, though it does not embrace all the enactments which have been desired, has, by the establishment of efficient and duly organized local authorities, done much both for the enforcement of the present Sanitary Laws and for rendering more easy what yet remains to be accomplished in the way of legislative provision on the subject.

The Act for regulating the custody and management of the large funds held by the Court of Chancery will relieve the numerous class of suitors in that Court from risks and inconveniences to which they may heretofore have been more or less exposed, and will likewise tend to an increased stability of our finance.

I am gratified to find that, by the Acts for the

regulation of mines, you have been enabled to supply new securities for the safety and advantage of the large bodies of my subjects engaged in this great branch of industry.

The enactments embodied in the measure for the regulation of the licensing system constitute a sensible improvement of the existing law, and I trust that the several regulations of police which they include will be found conducive to public order.

I am able to speak favourably both of the tranquillity and of the growing prosperity of Ireland.

The revenue is in a flourishing condition.

While I cordially congratulate you on the activity of trade and industry, I hope it will be borne in mind that periods of unusually rapid changes in the prices of commodities and in the value of labour are likewise periods in which there is more than ever a call for the exercise of moderation and forethought.

In bidding you farewell, I ask you to join with me in acknowledging the abundant mercies of the Almighty, and in imploring their continuance.

Then a Commission for proroguing the Parliament was read ; after which the Lord Chancellor said :

The Tribunal resolved to request the Council of State of Geneva to receive the archives of the Tribunal and to place them among its own archives.

The President, Count Sclopis, then directed the Secretary to make up the record of the proceedings of the Tribunal at this XXXII and last

Conference, as far as completed ; which was done, and the record having been read and approved, was signed by the President and Secretary of the Tribunal and the Agents of the two Governments.

Thereupon the President declared the labours of the Arbitrators to be finished and the Tribunal to be dissolved.

Inclosure 2.

DECISION AND AWARD.

Made by the Tribunal of Arbitration constituted by virtue of the first Article of the Treaty concluded at Washington the 8th of May, 1871, between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and the United States of America.

HER Britannic Majesty and the United States of America having agreed by Article I of the Treaty concluded and signed at Washington the 8th of May, 1871, to refer all the claims "generically known as the Alabama claims" to a Tribunal of Arbitration to be composed of five Arbitrators named :

- one by Her Britannic Majesty,
- one by the President of the United States,
- one by His Majesty the King of Italy,
- one by the President of the Swiss Confederation,
- one by His Majesty the Emperor of Brazil ;
- and

Her Britannic Majesty, the President of the United States, H.M. the King of Italy, the President of the Swiss Confederation, and H.M.

the Emperor of Brazil, having respectively named their Arbitrators, to wit :

Her Britannic Majesty :

Sir Alexander James Edmund Cockburn, Baronet,
a Member of Her Majesty's Privy Council,
Lord Chief Justice of England ;

The President of the United States :

Charles Francis Adams, Esquire ;

His Majesty the King of Italy :

His Excellency Count Frederic Sclopis of
Salerano, a Knight of the Order of the
Annunciata, Minister of State, Senator of the
Kingdom of Italy ;

The President of the Swiss Confederation :

Mr. James Stämpfli ;

His Majesty the Emperor of Brazil :

His Excellency Marcos Antonio d'Araujo,
Viscount d'Itajubà, a Grandee of the Empire
of Brazil, Member of the Council of H.M.
the Emperor of Brazil, and his Envoy Extra-
ordinary and Minister Plenipotentiary in
France ;

And the five Arbitrators above named having assembled at Geneva in (Switzerland) in one of the Chambers of the Hotel de Ville on the 15th of December, 1871, in conformity with the terms of the IInd Article of the Treaty of Washington, of the 8th of May of that year, and having proceeded to the inspection and verification of their respective powers, which were found duly authenticated, the Tribunal of Arbitration was declared duly organized.

The Agents named by each of the High Contracting Parties, by virtue of the same Article II, to wit :

For Her Britannic Majesty :

Charles Stuart Aubrey, Lord Tenterden, a Peer
of the United Kingdom, Companion of the

Most Honourable Order of the Bath, Assistant Under-Secretary of State for Foreign Affairs,

and for the United States of America :

John C. Bancroft Davis, Esquire ;

whose powers were found likewise duly authenticated, then delivered to each of the Arbitrators the printed Case prepared by each of the two Parties, accompanied by the documents, the official correspondence and other evidence on which each relied, in conformity with the terms of the IIIrd Article of the said Treaty.

In virtue of the decision made by the Tribunal at its first session, the Counter-Case and additional documents, correspondence, and evidence, referred to in Article IV of the said Treaty, were delivered by the respective Agents of the two Parties to the Secretary of the Tribunal on the 15th of April, 1872, at the Chamber of Conference, at the Hotel de Ville of Geneva.

The Tribunal in accordance with the vote of adjournment passed at their second session, held on the 16th of December, 1871, reassembled at Geneva on the 15th of June, 1872 ; and the Agent of each of the Parties duly delivered to each of the Arbitrators and to the Agent of the other Party the printed argument referred to in Article IV of the said Treaty.

The Tribunal having since fully taken into their consideration the Treaty and also the Cases, Counter-Cases. documents, evidence, and arguments, and likewise all other communications made to them by the two Parties during the progress of their sittings, and having impartially and carefully examined the same,

Has arrived at the decision embodied in the present award :

Whereas, having regard to the VIth and VIIth

Articles of the said Treaty, the Arbitrators are bound under the terms of the said VIth Article, "in deciding the matters submitted to them, to be governed by the three Rules therein specified and by such principles of International Law not inconsistent therewith, as the Arbitrators shall determine to have been applicable to the case ;"

And whereas the "due diligence" referred to in the first and third of the said Rules ought to be exercised by neutral Governments in exact proportion to the risks to which either of the belligerents may be exposed, from a failure to fulfil the obligations of neutrality on their part ;

And whereas the circumstances out of which the facts constituting the subject matter of the present controversy arose, were of a nature to call for the exercise on the part of Her Britannic Majesty's Government of all possible solicitude for the observance of the rights and the duties involved in the Proclamation of Neutrality issued by Her Majesty on the 13th day of May, 1861 ;

And whereas the effects of a violation of neutrality committed by means of the construction, equipment, and armament of a vessel are not done away with by any commission which the Government of the belligerent Power benefited by the violation of neutrality may afterwards have granted to that vessel : and the ultimate step, by which the offence is completed, cannot be admissible as a ground for the absolution of the offender, nor can the consummation of his fraud become the means of establishing his innocence ;

And whereas the privilege of extritoriality accorded to vessels of war has been admitted into the law of nations, not as an absolute right, but solely as a proceeding founded on the principle of courtesy and mutual deference between different nations, and therefore can never be appealed to

for the protection of acts done in violation of neutrality ;

And whereas the absence of a previous notice cannot be regarded as a failure in any consideration required by the law of nations, in those cases in which a vessel carries with it its own condemnation ;

And whereas, in order to impart to any supplies of coal a character inconsistent with the second Rule, prohibiting the use of neutral ports or waters, as a base of naval operations for a belligerent, it is necessary that the said supplies should be connected with special circumstances of time, of persons, or of place, which may combine to give them such character ;

And whereas, with respect to the vessel called the "*Alabama*," it clearly results from all the facts relative to the construction of the ship at first designated by the *Number* "290" in the port of Liverpool, and its equipment and armament in the vicinity of Terceira through the agency of the vessels called the "*Agrippina*" and the "*Bahama*," dispatched from Great Britain to that end, that the British Government failed to use due diligence in the performance of its neutral obligations ; and especially that it omitted, notwithstanding the warnings and official representations made by the diplomatic agents of the United States during the construction of the said "*Number 290*" to take in due time any effective measures of prevention, and that those orders which it did give at last, for the detention of the vessel, were issued so late that their execution was not practicable ;

And whereas, after the escape of that vessel, the measures taken for its pursuit and arrest were so imperfect as to lead to no result, and therefore cannot be considered sufficient to release Great Britain from the responsibility already incurred ;

And whereas in despite of the violations of the neutrality of Great Britain committed by the "290," this same vessel, later known as the Confederate cruiser *Alabama*, was on several occasions freely admitted into the ports of Colonies of Great Britain, instead of being proceeded against as it ought to have been in any and every port within British jurisdiction in which it might have been found ;

And whereas the Government of Her Britannic Majesty cannot justify itself for a failure in due diligence on the plea of the insufficiency of the legal means of action which it possessed ;

Four of the Arbitrators for the reasons above assigned, and the fifth for reasons separately assigned by him,

Are of opinion,

That Great Britain has in this case failed, by omission, to fulfil the duties prescribed in the first and the third of the Rules established by the VI Article of the Treaty of Washington.

And whereas with respect to the vessel called the "*Florida*," it results from all the facts relative to the construction of the "*Oreto*" in the port of Liverpool, and to its issue therefrom, which facts failed to induce the Authorities in Great Britain to resort to measures adequate to prevent the violation of the neutrality of that nation, notwithstanding the warnings and repeated representations of the Agents of the United States, that Her Majesty's Government has failed to use due diligence to fulfil the duties of neutrality ;

And whereas it likewise results from all the facts relative to the stay of the "*Oreto*" at Nassau, to her issue from that port, to her enlistment of men, to her supplies, and to her armament, with the co-operation of the British vessel "*Prince Alfred*," at Green Cay, that there was negligence on the part of the British Colonial Authorities ;

And whereas, notwithstanding the violation of the neutrality of Great Britain committed by the *Oreto*, this same vessel, later known as the Confederate cruiser "*Florida*," was nevertheless on several occasions freely admitted into the ports of British Colonies ;

And whereas the judicial acquittal of the *Oreto* at Nassau cannot relieve Great Britain from the responsibility incurred by her under the principles of International Law ; nor can the fact of the entry of the *Florida* into the Confederate port of Mobile, and of its stay there during four months, extinguish the responsibility previously to that time incurred by Great Britain :

For these reasons,

The Tribunal by a majority of four voices to one,
Is of opinion,

That Great Britain has in this case failed, by omission to fulfil the duties prescribed in the first, in the second, and in the third of the Rules established by Article VI of the Treaty of Washington.

And whereas, with respect to the vessel called the "*Shenandoah*," it results from all the facts relative to the departure from London of the merchant vessel the "*Sea-King*" and to the transformation of that ship into a Confederate cruiser under the name of the "*Shenandoah*," near the Island of Madeira, that the Government of Her Britannic Majesty is not chargeable with any failure, down to that date, in the use of due diligence to fulfil the duties of neutrality ;

But whereas it results from all the facts connected with the stay of the *Shenandoah* at Melbourne, and especially with the augmentation which the British Government itself admits to have been clandestinely effected of her force by the enlistment of men within that port, that there was

negligence on the part of the Authorities at that place.

For these reasons,

The Tribunal is unanimously of opinion,

That Great Britain has not failed, by any act or omission, to fulfil any of the duties prescribed by the three Rules of Article VI in the Treaty of Washington, or by the principles of International Law not inconsistent therewith, in respect to the vessel called the *Shenandoah*, during the period of time anterior to her entry into the port of Melbourne.

And by a majority of three to two voices, the Tribunal decides that Great Britain has failed, by omission, to fulfil the duties prescribed by the second and third of the Rules aforesaid, in the case of this same vessel, from and after her entry into Hobson's Bay, and is therefore responsible for all acts committed by that vessel after her departure from Melbourne, on the 18th day of February, 1865.

And so far as relates to the vessels called

The *Tuscaloosa*,

(Tender to the *Alabama*)

The *Clarence*,

The *Tacony*,

and The *Archer*,

(Tenders to the *Florida*),

The Tribunal is unanimously of opinion,

That such Tenders or auxiliary vessels, being properly regarded as accessories, must necessarily follow the lot of their Principals, and be submitted to the same decision which applies to them respectively.

And so far as relates to the vessel called "*Retribution*,"

The Tribunal, by a majority of three to two voices, is of opinion,

That Great Britain has not failed by any act or omission to fulfil any of the duties prescribed by the three Rules of Article VI in the Treaty of Washington, or by the principles of International Law not inconsistent therewith.

And so far as relates to the vessels called

The *Georgia*,

The *Sumter*.

The *Nashville*,

The *Tallahassee*,

and The *Chickamauga*, respectively.

The Tribunal is unanimously of opinion,

That Great Britain has not failed, by any act or omission, to fulfil any of the duties prescribed by the three Rules of Article VI in the Treaty of Washington, or by the principles of International Law not inconsistent therewith.

And so far as relates to the vessels called

The *Sallie*,

The *Jefferson Davis*,

The *Music*,

The *Boston*,

and the *V. H. Joy*, respectively,

The Tribunal is unanimously of opinion,

That they ought to be excluded from consideration, for want of evidence.

And whereas, so far as relates to the particulars of the indemnity claimed by the United States, the costs of pursuit of the Confederate cruisers are not, in the judgment of the Tribunal, properly distinguishable from the general expenses of the war carried on by the United States.

The Tribunal is, therefore, of opinion, by a majority of three to two voices,

That there is no ground for awarding to the United States any sum by way of indemnity under this head.

And whereas prospective earnings cannot pro-

perly be made the subject of compensation, inasmuch as they depend in their nature upon future and uncertain contingencies,

The Tribunal is unanimously of opinion,

That there is no ground for awarding to the United States any sum by way of indemnity under this head.

And whereas in order to arrive at an equitable compensation for the damages which have been sustained, it is necessary to set aside all double claims for the same losses, and all claims for "gross freights" so far as they exceed "nett freights ;"

And whereas it is just and reasonable to allow interest at a reasonable rate :

And whereas, in accordance with the spirit and letter of the Treaty of Washington, it is preferable to adopt the form of adjudication of a sum in gross, rather than to refer the subject of compensation for further discussion and deliberation to a Board of Assessors, as provided by Article X of the said Treaty ;

The Tribunal, making use of the authority conferred upon it by Article VII of the said Treaty, by a majority of four voices to one, awards to the United States the sum of fifteen millions five hundred thousand Dollars in gold as the indemnity to be paid by Great Britain to the United States for the satisfaction of all the claims referred to the consideration of the Tribunal, conformably to the provisions contained in Article VII of the aforesaid Treaty.

And in accordance with the terms of Article XI of the said Treaty, the Tribunal declares that "all the claims referred to in the Treaty as submitted to the Tribunal are hereby fully, perfectly, and finally settled."

Furthermore it declares, that "each and every-

one of the said claims, whether the same may or may not have been presented to the notice of, or made, preferred, or laid before the Tribunal, shall henceforth be considered and treated as finally settled, barred, and inadmissible."

In testimony whereof this present Decision and Award has been made in duplicate, and signed by the Arbitrators who have given their assent thereto, the whole being in exact conformity with the provisions of Article VII of the said Treaty of Washington.

Made and concluded at the Hotel de Ville of Geneva, in Switzerland, the 14th day of the month of September, in the year of our Lord one thousand eight hundred and seventy-two.

AT the Court at *Balmoral*, the 15th day of
October, 1872.

PRESENT,

The QUEEN'S Most Excellent Majesty in Council.

WHEREAS by an Act of Parliament made and passed in the Session of Parliament, holden in the thirty-third and thirty-fourth years of the reign of Her present Majesty, intituled "An

“ Act for amending the Law relating to the “ Extradition of Criminals,” it was, amongst other things, enacted, that where an arrangement has been made with any Foreign State with respect to the surrender to such State of any Fugitive Criminals, Her Majesty may, by Order in Council, direct that the said Act shall apply in the case of such Foreign State ; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to Fugitive Criminals who are in or suspected of being in the part of Her Majesty’s dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient :

And whereas a Treaty was concluded on the thirty-first day of July last between Her Majesty and the King of the Belgians, for the Mutual Extradition of Fugitive Criminals, which Treaty is in the terms following :—

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the King of the Belgians, having judged it expedient, with a view to the more complete prevention of crime within their respective territories, that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from the justice of their country, should, under certain circumstances, be reciprocally delivered up ; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose, that is to say :

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, John Savile Lumley, Esquire, Her Envoy Extraordinary and Minister Plenipotentiary to His Majesty the King of the Belgians ;

And His Majesty the King of the Belgians, the

Count d'Aspremont Lynden, Officer of His Order of Leopold, Commander of the Order of the Ernestine Branch of the House of Saxony, Grand Cross of the Orders of Charles III, of the Medjidie, and of the Saviour, Member of the Senate, His Minister of Foreign Affairs ;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles :—

ARTICLE I.

It is agreed that Her Britannic Majesty and His Majesty the King of the Belgians shall, on requisition made in their name by their respective Diplomatic Agents, deliver up to each other reciprocally, any persons, except as regards Great Britain, native born and naturalized subjects of Her Britannic Majesty, and except as regards Belgium, those who are by birth or who may have become citizens of Belgium, who being accused or convicted as principals or accessories before the fact, of any of the crimes hereinafter specified, committed within the territories of the requiring party, shall be found within the territories of the other party :

1. Murder (including assassination, parricide, infanticide, and poisoning), or attempt to murder.
2. Manslaughter.
3. Counterfeiting or altering money, or uttering counterfeit or altered money.
4. Forgery, counterfeiting, or altering, or uttering what is forged or counterfeited or altered.
5. Embezzlement or larceny.
6. Obtaining money or goods by false pretences.
7. Crimes by bankrupts against bankruptcy law.
8. Fraud by a bailee, banker, agent, factor,

trustee, or director, or member or public officer of any company, made criminal by any law for the time being in force.

9. Rape.

10. Abduction.

11. Child stealing.

12. Burglary or housebreaking.

13. Arson.

14. Robbery with violence (including intimidation).

15. Threats by letter or otherwise with intent to extort.

16. Piracy by law of nations.

17. Sinking or destroying a vessel at sea, or attempting or conspiring to do so.

18. Assaults on board a ship on the high seas with intent to destroy life or to do grievous bodily harm.

19. Revolt or conspiracy to revolt by two or more persons on board a ship on the high seas against the authority of the master.

Provided that the surrender shall be made only when, in the case of a person accused, the commission of the crime shall be so established as that the laws of the country where the fugitive or person accused shall be found would justify his apprehension and commitment for trial if the crime had been there committed ; and in the case of a person alleged to have been convicted, on such evidence as, according to the laws of the country where he is found, would prove that he had been convicted.

In no case can the surrender be made unless the crime shall be punishable according to the laws in force in both countries with regard to extradition.

ARTICLE II.

In the dominions of Her Britannic Majesty, other than the Colonies or Foreign Possessions of

Her Majesty, the manner of proceeding shall be as follows :—

I. In the case of a person accused—

The requisition for the surrender shall be made to Her Britannic Majesty's Principal Secretary of State for Foreign Affairs by the Minister or other Diplomatic Agent of His Majesty the King of the Belgians, accompanied by a warrant of arrest or other equivalent judicial document, issued by a Judge or Magistrate duly authorized to take cognizance of the acts charged against the accused in Belgium, together with duly authenticated depositions or statements taken on oath before such Judge or Magistrate, clearly setting forth the said acts, and containing a description of the person claimed, and any particulars which may serve to identify him. The said Secretary of State shall transmit such documents to Her Britannic Majesty's Principal Secretary of State for the Home Department, who shall then, by order under his hand and seal, signify to some Police Magistrate in London that such requisition has been made, and require him, if there be due cause, to issue his warrant for the apprehension of the fugitive.

On the receipt of such order from the Secretary of State, and on the production of such evidence as would, in the opinion of the Magistrate, justify the issue of the warrant if the crime had been committed in the United Kingdom, he shall issue this warrant accordingly.

When the fugitive shall have been apprehended, he shall be brought before the Police Magistrate who issued the warrant, or some other Police Magistrate in London. If the evidence to be then produced shall be such as to justify, according to the law of England, the committal for trial of the prisoner, if the crime of which he is accused had

been committed in England, the Police Magistrate shall commit him to prison to await the warrant of the Secretary of State for his surrender ; sending immediately to the Secretary of State a certificate of the committal and a report upon the case.

After the expiration of a period from the commitment of the prisoner, which shall never be less than fifteen days, the Secretary of State shall, by order under his hand and seal, order the fugitive criminal to be surrendered to such person as may be duly authorized to receive him on the part of the Government of His Majesty the King of the Belgians.

II. In the case of a person convicted—

The course of proceeding shall be the same as in the case of a person accused, except that the warrant to be transmitted by the Minister or other Diplomatic Agent in support of his requisition, shall clearly set forth the crime of which the person claimed has been convicted, and state the fact, place, and date of his conviction. The evidence to be produced before the Police Magistrate shall be such as would, according to the law of England, prove that the prisoner was convicted of the crime charged.

After the Police Magistrate shall have committed the accused or convicted person to prison to await the order of a Secretary of State for his surrender, such person shall have the right to apply for a writ of *habeas corpus* ; if he should so apply, his surrender must be deferred until after the decision of the Court upon the return to the writ, and even then can only take place if the decision is adverse to the applicant. In the latter case the Court may at once order his delivery to the person authorized to receive him, without the order of a Secretary of State for his surrender, or commit him to prison to await such order.

ARTICLE III.

In the dominions of His Majesty the King of the Belgians, other than the Colonies or Foreign Possessions of His said Majesty, the manner of proceeding shall be as follows :—

I. In the case of a person accused—

The requisition for the surrender shall be made to the Minister for Foreign Affairs of His Majesty the King of the Belgians by the Minister or other Diplomatic Agent of Her Britannic Majesty, accompanied by a warrant of arrest issued by a Judge or Magistrate duly authorized to take cognizance of the acts charged against the accused in Great Britain, together with duly authenticated depositions or statements taken on oath before such Judge or Magistrate, clearly setting forth the said acts, and containing a description of the person claimed, and any other particulars which may serve to identify him.

The Minister for Foreign Affairs shall transmit the warrant of arrest, with the documents thereto annexed, to the Minister of Justice, who shall forward the same to the proper judicial authority, in order that the warrant of arrest may be put in course of execution by the Chamber of the Council (*Chambre du Conseil*) of the Court of First Instance of the place of residence of the accused, or of the place where he may be found.

After issue of the order for arrest, and on exhibition of the warrant of arrest, the foreigner may be provisionally arrested, and the *Juge d'Instruction* is authorized to proceed according to the rules prescribed by the *Code d'Instruction Criminelle*.

The foreigner may claim to be provisionally set at liberty in any case in which a Belgian enjoys that right, and under the same conditions. The

application shall be submitted to the Chamber of the Council (*Chambre du Conseil*).

The surrender shall not be granted unless on production of the order of the Chamber of the Council (*Chambre du Conseil*), of the decree of the Chamber of Indictments or Investigation (*Chambre des Mises en Accusation*), or of the act of criminal procedure (*acte de procédure criminelle*), issued by the competent Judge, formally decreeing or necessarily involving the sending of the accused before a criminal court (*la juridiction répressive*), delivered in original or in an authenticated copy, and after having taken the opinion of the Chamber of Indictments or Investigation (*Chambre des Mises en Accusation*) of the Court of Appeal within whose jurisdiction the foreigner shall have been arrested.

The hearing of the case shall be public, unless the foreigner should demand that it should be with closed doors.

The public authorities and the foreigner shall be heard. The latter may obtain the assistance of Counsel.

Within a fortnight from the receipt of the documents, they shall be returned, with a reasoned opinion, to the Minister of Justice, who shall decide, and may order that the accused be delivered to the person duly authorized on the part of the Government of Her Britannic Majesty.

II. In the case of a person convicted—

The course of proceeding shall be the same as in the case of a person accused, except that the conviction or sentence of condemnation issued in original or in an authenticated copy, to be transmitted by the Minister or other Diplomatic Agent in support of his requisition, shall clearly set forth the crime of which the person claimed has been

convicted, and state the fact, place, and date of his conviction. The evidence to be produced before the Magistrate charged with the investigation of the case shall be such as would, according to the Belgian laws, prove that the prisoner was convicted of the crime charged.

ARTICLE IV.

A fugitive criminal may, however, be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the person issuing the warrant, justify the issue of a warrant, if the crime had been committed or the prisoner convicted, in that part of the dominions of the two Contracting Parties in which he exercises jurisdiction: Provided however that, in the United Kingdom, the accused shall, in such case, be sent as speedily as possible before a Police Magistrate in London. He shall be discharged, as well in the United Kingdom as in Belgium, if within fourteen days a requisition shall not have been made for his surrender by the Diplomatic Agent of his country, in the manner directed by Articles II and III of this Treaty.

The same rule shall apply to the cases of persons accused or convicted of any of the crimes specified in this Treaty, committed on the high seas, on board any vessel of either country which may come into a port of the other.

ARTICLE V.

If the fugitive criminal who has been committed to prison be not surrendered and conveyed away within two months after such committal (or within two months after the decision of the Court upon

the return to a writ of *habeas corpus* in the United Kingdom), he shall be discharged from custody, unless sufficient cause be shown to the contrary.

ARTICLE VI.

When any person shall have been surrendered by either of the High Contracting Parties to the other, such person shall not, until he has been restored or had an opportunity of returning to the country from whence he was surrendered, be triable or tried for any offence committed in the other country prior to the surrender, other than the particular offence on account of which he was surrendered.

ARTICLE VII.

No accused or convicted person shall be surrendered, if the offence in respect of which his surrender is demanded shall be deemed by the Party upon which it is made to be a political offence, or to be an act connected with (*connexe à*) such an offence, or if he prove to the satisfaction of the Police Magistrate, or of the Court before which he is brought on *habeas corpus*, or to the Secretary of State, that the requisition for his surrender has in fact been made with a view to try or to punish him for an offence of a political character.

ARTICLE VIII.

Warrants, depositions, or statements on oath, issued or taken in the dominions of either of the two High Contracting Parties, and copies thereof, and certificates of or judicial documents stating the fact of conviction, shall be received in evidence in proceedings in the dominions of the other, if purporting to be signed or certified by a Judge, Magistrate, or officer of the country where they were issued or taken.

Provided such warrants, depositions, statements, copies, certificates, and judicial documents are authenticated by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of State.

ARTICLE IX.

The surrender shall not take place if, since the commission of the acts charged, the accusation, or the conviction, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the country where the accused shall have taken refuge.

ARTICLE X.

If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of their crimes committed upon their respective territories, his surrender shall be granted to that State whose demand is earliest in date; unless any other arrangement should be made between the Governments which have claimed him, either on account of the gravity of the crimes committed, or for any other reasons.

ARTICLE XI.

If the individual claimed should be under prosecution, or condemned for a crime or offence committed in the country where he may have taken refuge, his surrender may be deferred until he shall have been set at liberty in due course of law.

In case he should be proceeded against or detained in such country, on account of obligations contracted towards private individuals, his surrender shall nevertheless take place, the injured

party retaining his right to prosecute his claims before the competent authority.

ARTICLE XII.

Every article found in the possession of the individual claimed at the time of his arrest, shall, if the competent authority so decide, be seized, in order to be delivered up with his person at the time when the surrender shall be made. Such delivery shall not be limited to the property or articles obtained by stealing or by fraudulent bankruptcy, but shall extend to every thing that may serve as proof of the crime. It shall take place even when the surrender, after having been ordered, shall be prevented from taking place by reason of the escape or death of the individual claimed.

The rights of third parties with regard to the said property or articles are nevertheless reserved.

ARTICLE XIII.

Each of the High Contracting Parties shall defray the expenses occasioned by the arrest within its territories, the detention, and the conveyance to its frontier, of the persons whom it may consent to surrender in pursuance of the present Treaty.

ARTICLE XIV.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign Possessions of the two High Contracting Parties.

The requisition for the surrender of a fugitive criminal who has taken refuge in a Colony or foreign Possession of either Party, shall be made to the Governor or Chief Authority of such Colony or Possession by the Chief Consular Officer of the other in such Colony or Possession; or, if

the fugitive has escaped from a Colony or foreign Possession of the Party on whose behalf the requisition is made, by the Governor or Chief Authority of such Colony or Possession.

Such requisitions may be disposed of, subject always, as nearly as may be, to the provisions of this Treaty, by the respective Governors or Chief Authorities, who, however, shall be at liberty either to grant the surrender, or to refer the matter to their Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and Foreign Possessions for the surrender of Belgian criminals who may there take refuge, on the basis, as nearly as may be, of the provisions of the present Treaty.

ARTICLE XV.

The present Treaty shall come into operation ten days after its publication in conformity with the laws of the respective countries.

Either Party may at any time terminate the Treaty on giving to the other six months' notice of its intention.

ARTICLE XVI.

The present Treaty shall be ratified, and the Ratifications shall be exchanged at Brussels as soon as may be within six weeks from the date of signature.

In witness whereof, the respective Plenipotentiaries have signed the same, and have affixed thereto the seals of their arms.

Done at Brussels, the thirty-first day of July, in the year of Our Lord one thousand eight hundred and seventy-two.

In case of a death during the voyage of a vessel carrying a Professor of Medicine and Surgery, the captain or master shall show to the Health Director at the port of arrival the medical log, which must set forth all the data necessary for forming the true diagnosis of the illness, so as to judge therefrom whether the malady be infectious and contagious.

If there be no doctor in the vessel, the captain or master, and at least two persons of those who may have assisted the patient until his death shall testify on oath, before the Port Director, Secretary, Interpreter (if the vessel be foreign), and a Medical Commission named by the Provincial or Municipal Sanitary Junta, as the case may be, the symptoms they may have observed in the illness which caused the death, in order that, in view of those data, the proper decision may be come to by the persons receiving the deposition.

2. If there be a difference between the number of persons brought by the vessel and the number mentioned in the bill of health, then, having examined the latter, the roll, and the log, the Director, Secretary, and Interpreter (if the vessel be foreign), shall take the sworn deposition of the captain or master, and of at least three witnesses belonging to the vessel, as to the causes of the accident, and the sanitary treatment of the vessel shall then be decided.

*Board of Trade, Whitehall,
October 28, 1872.*

THE Queen has been graciously pleased to confer the decoration of the "Albert Medal of the First Class" on each of the undernamed gentlemen; viz.:—

MR. AUGUSTUS RAYMOND MARGARY, Assistant
in Her Majesty's Consular Service in China,
and

MR. JOHN DODD, a British Merchant residing
at Ke-lung, Formosa.

The following is an account of the services in respect of which the decoration has been conferred:—

During the raging of a very violent typhoon, which burst over the north coast of Formosa on the 9th August, 1871, the schooner "Anne," of Hong Kong, and the French barque "Adèle" were amongst the vessels blown from their anchorage and driven on the rocky shore of Ke-lung Harbour. The night was very dark, with a blinding rain, and great quantities of wreck were floating in the water and being washed ashore in the surf; but, by the aid of a brilliant light of burning camphor, the position of the ships was made out from the shore.

MR. AUGUSTUS RAYMOND MARGARY, Assistant in Her Majesty's Consular Service in China, and MR. JOHN DODD, a British Merchant, at Ke-lung, had a rope fastened to their bodies and went into the surf with a view to aiding the crew of the schooner "Anne," of Hong Kong, the nearest ship that could be discerned. Aiding each other, they waded and then swam a distance of some thirty or forty yards through the surf. The rope proved to be too short, and they were compelled either to throw it away or to return to the shore.

They threw the rope off and reached the ship by swimming. They then tried to reach the shore with a rope from the ship, and after making an unsuccessful effort to do this, they persuaded two volunteers to lower a small boat, which was done with great difficulty, in which MESSRS. MARGARY and DODD tried to row back with a rope. Their efforts were frustrated. The boat was turned completely over and MR. MARGARY was for a few moments underneath it. They were, however, thrown on shore with fortunately but few bruises. The ship was rocking violently from side to side when they left her, but seemed to sustain no damage, and by the advice of the Captain, who appeared confident then of the strength of his ship, they desisted from further efforts, as there were more distressing cases calling for assistance further off. Timber was strewn on the beach and was beating amongst the rocks in such a way that little hope could be entertained of any living thing yet remaining; but an occasional wail of the sufferers in the sea induced MESSRS. MARGARY and DODD to persevere for several hours. They then with difficulty, effort, and danger, and in the dark, crawled over sandstone rocks of a peculiarly rugged nature, amidst breakers and wreck, until they arrived to within a short distance of the remains of the French ship "Adèle," and by swimming they were able to make a connexion with her by a rope from the shore.

MR. DODD swam to seize the buoy which the Frenchmen threw over, while MR. MARGARY swam to meet him with the shore rope. They joined the two and immediately gained the deck, which was by this time shattered. With the aid of the rope the greater part of the crew passed safely to shore, when MR. DODD and MR. MARGARY discovered the boatswain lying half under water, with his leg com-

pletely broken above the ankle. They raised him and carried him on shore by swimming. They then made repeated efforts to cross the broken back of the ship, to save four men who remained cut off in the bows. These men were helplessly frightened, and could scarcely be got down. MESSRS. MARGARY and DODD in the end succeeded, but were both washed down by a heavy sea, which caused much injury to MR. DODD.

The last thing which left the ship was a black cat, which clung to Mr. MARGARY's shoulder in spite of the heavy surf which was rolling over all, and when they left the ship she was actually breaking up beneath their feet.

FROM THE
LONDON GAZETTE of NOVEMBER 8.
 1872.

Foreign Office, November 7, 1872.

THE following Despatch has been this day addressed to Lord Lyons, Her Majesty's Ambassador at Paris :—

MY LORD,

I TRANSMIT to your Excellency herewith a copy of the Treaty of Commerce and Navigation signed on the 5th instant, by the Plenipotentiaries of Great Britain and France.

I am, &c.,

(Signed) GRANVILLE.

*His Excellency the Right Honourable
 The Lord Lyons, G.C.B., &c., &c., &c.*

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland and His Excellency the President of the French Republic, being equally animated with the desire to draw closer the ties of friendship which unite their two countries, and being desirous of placing on a permanent and satisfactory footing the commercial relations between the two States, have determined to conclude a Treaty of Commerce and Navigation, which shall be substituted for the Treaty and Conventions of the 23rd of January and 12th of October and 16th of November, 1860, and they have accordingly appointed as their respective Plenipotentiaries for that purpose ; that is to say :—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honourable Granville George Earl Granville, Lord Leveson,

Peer of the United Kingdom, Knight of the Most Noble Order of the Garter, a Member of Her Majesty's Privy Council, Lord Warden of the Cinque Ports and Constable of Dover Castle, Chancellor of the University of London, Her Majesty's Principal Secretary of State for Foreign Affairs ;

And His Excellency the President of the French Republic, M. Charles Gavard, Chargé d'Affaires of France at London, Officer of the National Order of the Legion of Honour, &c., &c., &c., and M. Ozenne, Councillor of State, Secretary-General in the Department of Agriculture and Commerce, Commander of the National Order of the Legion of Honour, &c., &c., &c. ;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles :—

ARTICLE I.

The subjects of Her Britannic Majesty who dwell either temporarily or permanently in France and in French possessions, and the subjects of France who dwell either temporarily or permanently in the dominions or possessions of Her Britannic Majesty, shall enjoy therein, in respect to their residence in the territories of the other State and the exercise of commerce and trades, the same rights as, and be subjected to no higher or other taxes than, native subjects or the subjects of any third country the most favoured in those respects.

ARTICLE II.

The President of the French Republic having represented to Her Majesty the Queen of the United Kingdom of Great Britain and Ireland that the financial necessities of France imperatively require the imposition of new taxes in that country

and the modification for that purpose of the stipulations in regard to Tariffs of the Treaty of the 23rd of January, 1860, and of the Supplementary Conventions of the 12th of October and 16th of November of the same year, Her Majesty, in a spirit of friendship towards France, consents to such modification subject to the conditions specified either in this or in other Articles of the present Treaty.

The High Contracting Parties guarantee to each other the treatment of the most-favoured nation: that is to say, from the 1st December, 1872, no duties shall be imposed either in France or in Algeria on goods the produce or manufacture of the United Kingdom or of British Possession, higher than the duties imposed on the like goods the produce or manufacture of any other foreign country, whether within or beyond Europe; and no duties shall be imposed in the United Kingdom on goods the produce or manufacture of France or French Possessions higher than the duties imposed on the like goods the produce or manufacture of any other foreign country, whether within or beyond Europe; and any favour, immunity, privilege, or reduction of duty whatsoever (other than those in regard to which a special exception is hereinafter made in matters relating to the commerce of the United Kingdom or of France and Algeria respectively, which has been or may be, conceded by either Party to any third Power whatsoever, whether within or beyond Europe, shall be extended, immediately and unconditionally, to the other Contracting Party.

It is agreed, however, that, from the 1st of December next, if the ratifications of the present Treaty and the Protocol annexed thereto shall have been exchanged before that date, and if not, from the date of such ratifications being exchanged, the duties specified in Annex I may be levied until the

31st of December, 1876, on goods the produce or manufacture of the United Kingdom, or of British Possessions imported into France or Algeria.

It is also agreed between the High Contracting Powers—

1st. That, as long as the Treaties concluded by France with other Powers shall not be modified, these duties shall, during the above-mentioned period, be the maximum duties which may be levied on goods the produce or manufacture of the United Kingdom or of British Possessions on their importation into France or Algeria.

2nd. That the difference, as against such goods, of the duties therein specified shall not be increased relatively to the duties on the like goods now levied under Treaties existing between France and any third Power.

3rd. That, except as specially provided in the third paragraph of this Article, the Tariffs annexed to the Treaty and Conventions of 1860 above-mentioned, shall remain in force until the 15th of March, 1873.

4th That any reduction of duties which has been or may hereafter be granted by France to any third Power, whether within or beyond Europe, shall be immediately and unconditionally extended to Great Britain ; and, reciprocally, that any reduction of duties which has been or may hereafter be granted by Great Britain to any third Power, whether within or beyond Europe, shall be immediately and unconditionally extended to France ; and that no increase shall be made by Great Britain in the duties imposed by the Tariff now in force in the United Kingdom, of which a copy forms Annex II to the present Treaty, upon goods the produce or manufacture of France or of any French Possession which shall not equally be made with respect to goods of the same nature the produce or manufacture of any other country.

5th. That hereafter British ships and their cargoes shall, in France and Algeria, and French ships and their cargoes shall, in the United Kingdom of Great Britain and Ireland, from whatever place arriving, and whatever may be the places of origin or destination of their cargoes, be treated in every respect as national ships and their cargoes.

The coasting trade, however, is excepted from the preceding stipulation, and remains subject to the respective laws of the two countries.

ARTICLE III.

The transit of goods to and from the United Kingdom shall be free from all transit duties in France and Algeria, and the transit of goods to and from France and Algeria shall be free from all transit duties in the United Kingdom.

ARTICLE IV.

No prohibition of importation or exportation shall be established by either of the High Contracting Powers against the other, which shall not at the same time be applicable to all other foreign nations whatsoever : except, however temporary prohibitions or restrictions which either Government may think it necessary to impose in regard to contraband of war or for sanitary purposes.

ARTICLE V.

If one of the High Contracting Powers shall impose an excise tax or inland duty upon any article of home production or manufacture, an equivalent compensatory duty may be imposed on articles of the same description on their importation from the territories of the other Power, provided that the said equivalent duty is levied on the like articles on their importation from all other foreign countries.

But no compensatory duty shall be leviable in

respect of a Customs duty on raw materials or other produce or goods imported from abroad.

In the event of the reduction or abolition of any such excise tax or inland duty, a reduction corresponding in amount shall at the same time be made in the equivalent compensatory import duty on manufactures.

ARTICLE VI.

Duties *ad valorem* payable in France or Algeria shall be calculated on the value at the place of production or fabrication of the article imported, with the addition of the cost of transport, insurance, and commission necessary for the importation into France or Algeria as far as the port of discharge.

For the levying of these duties, the importer shall make a written declaration at the Custom-house, stating the value and description of the goods. If the Custom-house authorities shall be of opinion that the declared value is insufficient, they shall be at liberty to take the goods on paying to the importer the price declared with an addition of five per cent.

This payment, together with the restitution of any duty which may have been levied upon such goods, shall be made within the fifteen days next following the declaration.

ARTICLE VII.

The French Government shall have the power to designate certain Custom-houses exclusively for the admission of goods taxed *ad valorem*, the valuation of which may appear to them to present difficulties.

ARTICLE VIII.

The importer, against whom the French Customs may desire to exercise the right of pre-emption

stipulated in Article VI, may, if he prefers to do so, demand a valuation of his goods by experts.

The same demand may be made by the French Customs when they may not think fit to have immediate recourse to pre-emption.

Should the French Customs decline to exercise their right of pre-emption, they shall authorize the immediate surrender of the goods to the importer, on the express condition that the said importer shall offer adequate security for the payment of the duties and fines which might result from the valuation by experts, for which valuation the Customs shall retain the necessary samples.

ARTICLE IX.

If the result of such valuation by experts should prove that the value of the goods is not five per cent. above that which has been declared by the importer, the duty shall be levied upon the value so declared.

If the proved value is five per cent. or more above the value declared, the French Customs Authorities shall be entitled, at their choice, either to exercise the right of pre-emption or to levy the duty on the value determined by the experts.

This duty shall be increased by fifty per cent., as a fine, if the valuation of the experts is ten per cent. or more above the declared value.

If the value, as determined by the experts, exceeds the declared value by five per cent. or more, the costs of the valuation by the experts shall be defrayed by the declarant. In all other cases they shall be defrayed by the French Customs Authorities.

In case of any dispute arising between the importer and the French Customs Authorities as to the class or denomination under which any goods may be chargeable with duty, such dispute shall

be referred to and be decided by experts, if the importer is dissatisfied with the decision of the Customs.

In all cases of dispute the declarant shall have the option, if he thinks fit, to remove the valuation by experts from an outport to Paris. The desire for such removal must be signified before the inquiry by experts at the outport begins.

ARTICLE X.

In the cases contemplated by Articles VIII and IX, two experts shall be named, one by the declarant or his agent, the other by the local Chief of the Customs Service at the place where the inquiry is to take place. If there be difference of opinion between them, or if at the time of appointing the experts the declarant shall require it, the experts shall choose an Umpire. In default of agreement, such Umpire shall be appointed by the President of the Tribunal of Commerce at the port of importation, or, in his default, by the President of the Tribunal of Commerce at the nearest place. The declarant, as well as the Customs Authorities, may demand that, instead of being made in the above-mentioned manner, the inquiry shall be carried out at Paris by the Board of Legal Expertise appointed to be held at the Ministry of Agriculture and Commerce by Article 19 of the Law of the 27th July, 1822.

Such option must be declared within twenty-four hours of the notification of pre-emption or of the demand for an inquiry by experts.

The experts which the above-mentioned Board shall associate with themselves to report on the matters submitted to them, must be chosen from the list annually prepared by the President of the Chamber of Commerce of Paris.

The decision of the experts shall be given within eight days if the inquiry takes place at the

place of arrival, and, if the settlement is referred to the Board of Legal Expertise at Paris, it shall be given within fifteen days.

ARTICLE XI.

In order to establish the fact that goods are the produce or manufacture of the United Kingdom or British Possessions, the importer may, if he shall think fit, present at the French Custom-house a certificate of origin which shall be either an official declaration made before a magistrate exercising jurisdiction at the place of dispatch, or a certificate granted by the chief officer of the Customs at the port of embarkation, or a certificate granted by the Consul or Consular Agent of France at the place of dispatch or at the port of embarkation.

The signature of the British authority shall be certified by the Consul or Consular Agent of France, if any, residing in the place or Possession from which the goods are dispatched or shipped; and if in the case of a British Possession there is no such Consul or Consular Agent, then by the Officer administering the Government of such Possession.

ARTICLE XII.

The importer of machines and mechanical instruments, whether complete or in detached pieces, or of other articles the produce or manufacture of the United Kingdom or British Possessions, shall be exempt from any obligation of producing at the French Customs any models or drawings of such articles.

ARTICLE XIII.

The importer of any goods the produce or manufacture of the United Kingdom or British Possessions, taxed *ad valorem*, may, if he shall think fit, attach to the declaration verifying the

value of such goods, and to the certificate of origin an invoice emanating from the manufacturer or from the seller, which shall show the price actually charged to him for such goods.

ARTICLE XIV.

When goods upon which an *ad valorem* duty is levied have been previously warehoused, the duty shall be levied according to the value of those goods at the time of their actual importation into France or Algeria.

ARTICLE XV.

Independently of the duties of Customs, articles of goldsmith's work and of jewellery of the manufacture of either country in gold, silver, platina, or other metals, imported into the other, shall be subject to the system of control established in the country of importation for similar articles of domestic manufacture, and shall pay, if required, on the same basis as national articles, the duties of marking and guarantee.

The above stipulations shall be applicable to fire-arms, anchors, chain cables, and all other articles over which similar control is or may be exercised.

ARTICLE XVI.

The subjects of each of the two High Contracting Powers shall, in the dominions of the other, enjoy the same protection and be subject to the same conditions as native subjects in regard to the rights of property in trade marks and other distinctive marks showing the origin or quality of goods, as well as in patterns and designs for manufactures.

ARTICLE XVII.

Articles liable to duty serving as patterns or samples, which shall be introduced into the United

Kingdom by French commercial travellers or into France and Algeria by commercial travellers of the United Kingdom, shall be admitted free of duty, subject to the following formalities requisite to insure their being re-exported or placed in bond :

1. The officers of Customs at any port or place at which the patterns and samples may be imported shall ascertain the amount of duty chargeable thereon. That amount must either be deposited by the commercial traveller at the Custom-house in money, or ample security must be given for it.

2. For the purpose of identification each separate pattern or sample shall, as far as possible, be marked by the affixing of a stamp or by means of a seal being attached to it.

3. A permit or certificate shall be given to the importer which shall contain—

(a.) A list of the patterns or samples imported, specifying the nature of the goods and also such particular marks as may be proper for the purpose of identification ;

(b.) A statement of the duty chargeable on the patterns or samples, as also whether the amount was deposited in money or whether security was given for it ;

(c.) A statement showing the manner in which the patterns or samples were marked ;

(d.) The appointment of a period, which at the utmost must not exceed twelve months, at the expiration of which, unless it is proved that the patterns or samples have been previously re-exported or placed in bond, the amount of duty deposited will be carried to the public account or the amount recovered under the security given.

No charge shall be made to the importer for the above permit or certificate or for marking for identification.

4. Patterns or samples may be re-exported

through the Custom-house through which they were imported, or through any other.

5. If, before the expiration of the appointed time (paragraph 3, *d*), the patterns or samples should be presented at the Custom-house of any port or place for the purpose of re-exportation or being placed in bond, the officers at such port or place must satisfy themselves by examination whether the articles which are brought to them are the same as those for which the permit of entry was granted. If so satisfied, the officers will certify the re-exportation or deposit in bond, and will refund the duty which had been deposited, or will take the necessary steps for discharging the security.

ARTICLE XVIII.

Each of the High Contracting Parties may appoint Consuls-General, Consuls, Vice-Consuls, and Consular Agents to reside in the towns and ports of the dominions and possessions of the other, where, in accordance with established practice, such Consular Officers are allowed to reside. Such Consuls-General, Consuls, Vice-Consuls and Consular Agents, however, shall not enter upon their functions until after they shall have been approved and admitted, in the usual form, by the Government to which they are sent. They shall, within their Consular district, be allowed to exercise whatever functions, and shall enjoy whatever privileges, exemptions, and immunities, are or shall be granted to Consuls or Officers of the same rank of the most favoured nation at the place where they are appointed to reside.

ARTICLE XIX.

The Consuls-General, Consuls, Vice-Consuls and Consular Agents of each of the Contracting

Parties residing in the dominions and possessions of the other shall receive from the local authorities such assistance as can by law be given to them for the recovery of deserters from the vessels of their respective countries.

ARTICLE XX.

The High Contracting Parties reserve to themselves the power of levying from the subjects of the other landing or shipping dues, in order to pay the expenses of all necessary establishments at the ports of importation and exportation.

Such dues, however, shall not be higher or other than those levied on national goods, cargoes, or shipping.

In all that relates to local treatment, Customs formalities, brokerage, warehousing, re-exportation, dues and charges in the ports, basins, docks, roadsteads, harbours and rivers of the two countries, the privileges, favours, or advantages which are or shall be granted to national vessels generally, or to the goods imported or exported in them, shall be equally granted to the vessels of the other country, and to the goods imported or exported in them, excepting always the coasting trade.

ARTICLE XXI.

The High Contracting Parties agree to appoint a Commission, which shall consist of one member on the part of each Government to meet at Paris within ten days after the signature of the present Treaty, to discuss certain questions connected with the duties to be levied under Annex I, which questions are not yet settled between the two Governments. The result of this examination shall form the subject of a Report, which the Commissioners shall address to their respective Governments. They further agree to refer to the

same Commission the settlement of certain other questions, as provided for in a separate Protocol, which shall be annexed to the present Treaty, and shall be included in the ratification thereof.

The Commission shall finish its labours within three months, if possible, but its duration may be prolonged by agreement between the High Contracting Parties for any period or periods not exceeding six months longer.

ARTICLE XXII.

The provisions in regard to Tariffs contained in Article II of the present Treaty shall remain in force till the 1st day of January, 1877, and the provisions in regard to navigation contained in the same Article shall remain in force until the 15th of July, 1879, and thenceforth until terminated in the manner mentioned in this Article.

The High Contracting Parties, if they think fit, may communicate with each other respecting the general working of the present Treaty, and come to an understanding by means of a Declaration or Protocol with respect to its further duration. Failing such definite understanding and subject to the condition in the next Article stated, either Party may, by twelve months' previous notice, which may be given either at any time after the aforesaid dates respectively, or within the twelve months next preceding the same, terminate any of the provisions contained in the preceding Articles of the present Treaty, and, until the expiration of any such notice, this present Treaty, or such part thereof as shall for the time being not be terminated by any similar notice, shall remain in force.

ARTICLE XXIII.

The High Contracting Powers in reserving to themselves the power, as set forth in Article

XXII, to terminate any specific provisions contained in the present Treaty, engage, nevertheless, at all times hereafter to treat each other in all matters relating to commerce and navigation on the footing of the most favoured nation, and that the termination of any specific provisions of the present Treaty, as stipulated in the preceding Article, shall be subject to the above condition.

ARTICLE XXIV.

The President of the French Republic engages to recommend the National Assembly to give the necessary sanction for the execution of the present Treaty as soon as possible after an agreement between the two Governments shall have been arrived at with respect to the questions which are mentioned in Article XXI, and which, not having yet been settled, are by the same Article XXI referred to the Commission therein mentioned.

The ratifications of the present Treaty shall be exchanged at Paris as soon as possible after such sanction shall have been notified to Her Majesty's Government; the Treaty shall come into force immediately on the exchange of the ratifications; and the Treaty of the 23rd January, 1860, the Additional Articles of the 25th February, 1860, and 27th June, 1860, and the Supplementary Conventions of the 12th October and 16th November, 1860, shall be cancelled thereafter, except in so far as relates to the specific stipulations contained in Article II, and the arrangements with respect to matters reserved to the Commission to be appointed in conformity with Article XXI of the present Treaty.

In witness whereof the respective Plenipotentiaries have signed the present Treaty, and have affixed thereto the Seals of their arms.

PROTOCOL of a Conference held at the Foreign Office, November 5, 1872, between the Plenipotentiaries of Great Britain and of Francee.

THE Plenipotentiaries of Her Britannic Majesty and of the French Republic, in proceeding to the signature of the Treaty of Commerce and Navigation of this date, place upon record that they have agreed upon the following points :—

ARTICLE I.

The Commission named in Article XXI of the Treaty of Commerce and Navigation of this date between Great Britain and Francee shall meet at Paris within ten days after the signature of the Treaty and the present Protocol, in order to examine the questions reserved by the said Article XXI for further consideration, and, if possible, to recommend to the Governments of the two countries a settlement of the same.

After their first meeting, the Commission shall adjourn for a period not exceeding ten days, in order to allow the British Commissioner to prepare the statement in regard to these several matters to be presented on the part of Her Majesty's Government.

When the Commission shall have agreed on its Report on the said questions, which it shall have examined and discussed, it shall adjourn for a period not exceeding fourteen days, in order to

enable the two Governments to come to a decision with regard to its recommendations, which decision the Commission shall announce at its first meeting.

As soon as an agreement shall have been come to between the two Governments on these questions, the President of the French Republic shall proceed with the Treaty in the manner specified in Article XXIV of the said Treaty.

ARTICLE II.

As soon as the National Assembly shall have sanctioned the Treaty, the Commission shall meet again to deliberate and to decide upon the questions hereinafter stated as to existing contracts and relating to British mineral oils, and as to the duties to be levied in respect thereof.

ARTICLE III.

The High Contracting Parties, before the exchange of the ratifications of the present Treaty and Protocol, shall name some third person to act as Arbitrator in regard to any points in connection with the questions referred to in the preceding Article on which the Commissioners may themselves differ in opinion. The Commissioners shall refer any such points to the Arbitrator, whose decision shall be binding on the Commissioners, and shall be reported by them accordingly.

The High Contracting Parties shall forthwith carry out the decision come to by the Commission or by the Arbitrator.

ARTICLE IV.

All contracts already entered into for the delivery of goods in France or Algeria, which are still unexecuted in whole or in part, may be submitted to the Commission for equitable considera-

tion as to the relief to be afforded to the importer of such goods from payment of the augmented duties to which they would otherwise be liable under the Tariff in Annex I, before the 15th of March, 1873.

Immediately on the signature of the Treaty, the two Government respectively shall publish notices requiring all contracts made in the United Kingdom, or in France or Algeria, as the case may be, which remain to be executed in whole or in part between the date when the Tariff, Annex I, shall come into operation and the 15th March, 1873, to be notified in writing within fourteen days after the publication of such notice at the Foreign Office in London and at the Ministry of Agriculture and of Commerce in Paris. The two Governments shall cause such contracts to be examined by the Commission with the view to ascertain their validity, that is to say, that they were binding contracts according to the Laws of the respective countries, when they were entered into, and also that they were entered into in good faith as regards the French Government ; meaning, that they were not entered into by persons aware of an intention or proposal on the part of the respective Governments to agree to the duties being raised before the 15th of March, 1873, with a view to evade the payment of the increased duties.

Should the Commissioners differ in opinion in regard to any particular case or cases, they shall refer the same to the Arbitrator, whose decisions shall be final.

In case the validity of any of such contracts shall be admitted by the Commission, the French Government will take the necessary steps for repaying to the importers the duties levied in excess on goods comprised in the contracts so admitted to be valid, and imported into France

between the date when the Tariff in Annex I shall come into operation, and the 15th of March, 1873, that is to say, the amount of duty levied beyond the amount which would have been levied as duty under the Tariffs authorized by the Treaty and Conventions of 1860, or as to any such duties which have been reduced since 1860 by the French Government, then beyond the amount of such duties which would have been levied for such reduced duties.

ARTICLE V.

The Commission shall also decide on questions concerning duties levied in France on British mineral oils, which have formed the subject of diplomatic correspondence between the two Governments, and shall effect a settlement of the same on the following terms :—

The French Government consents to admit, at the duty of 5 per cent., the rate of duty levied previously to the passing of the Law of the 8th July, 1871, British mineral oils. It is nevertheless agreed that the said oils, in conformity with Article V of the present Treaty, shall be likewise subject to the duty of 5 fr. per 100 kilog. now established by the same Law of the 8th of July, 1871, or those which may be hereafter levied, on the like oils manufactured in France ;

To extend the benefit of the above provisions to British mineral oils, to be supplied to persons in France under contracts entered into before the promulgation of the Law of the 8th of July, 1871 ;

To examine how far it would be possible to effect reimbursement of duties levied in excess of the duty of 5 per cent., and the tax of 5 fr. per 100 kilog. above referred to, in the case of British mineral oils introduced into France since the promulgation of the Law of the 8th of July, 1871,.

otherwise than in pursuance of contracts previously entered into.

In regard to the contracts referred to under the third paragraph, the settlement shall include indemnification for actions of breach of contract resulting from the operation of the Law of the 8th of July, 1871.

ARTICLE VI.

The Commission, after the conclusion of its labours in respect of the questions directed in the foregoing Articles, to be referred to it, shall also consider and report on any other questions which the High Contracting Parties may now or hereafter agree to refer to it.

The Government of Her Britannic Majesty desire that it should inquire into the causes which have hitherto prevented the full execution of the Fishery Convention of the 11th of November, 1867.

The French Government desire that it should inquire in the causes which have hitherto prevented the Literary Convention concluded between the two countries on the 3rd of November, 1851, producing the results expected from it in regard to performances and representations of dramatic and lyrical works on the English stage.

ARTICLE VII.

At any meeting of the Commission after its first preliminary meeting, persons may be called to give information on any point in regard to which either of the Commissioners may think such a course advisable.

FROM THE

LONDON GAZETTE of NOVEMBER 12,
1872.

(M. 11427.)

*Marine Department, Board of Trade,
Whitehall Gardens, November 8, 1872.*

THE Board of Trade have received from Her Majesty's Consul at Charente, a Despatch, enclosing

a printed extract (a copy of which is subjoined), showing the rules established with regard to the passage of vessels, bound to or from the Ports of Tonnay, Charente, and Rochefort, through the Dockyard of Rochefort. These rules came into operation on and after the 1st October.

It will be noticed that under those rules (Art. 1), the necessity, which previously applied to British ships, of being provided with "passes," and of employing Arsenal Pilots and Firemen when crossing the dockyard has been discontinued, but that the requirement to employ the last-named officers still applies to vessels stopping in the dockyard (Art. 11 and others). Also that the Sea Pilots may now conduct vessels the whole way to Charente (Art. 1). With regard to outward bound vessels the custom will be that the Pilot from the starting point, Tonnay, Charente, or Rochefort, as the case may be, will conduct the vessel to Soubise or Port des Barques, there to be relieved by the Sea Pilot. Merchant vessels are not permitted to traverse the dockyard from gun fire in the evening to gun fire in the morning (sunset to sunrise), nor when the prohibiting signal (a white flag with a red square in centre) is hoisted. The penalty imposed by Article 15, consists of imprisonment for a period not exceeding eight days.

Dispositions à observer par les Bâtiments du Commerce, Français et Etrangers, qui traversent le Port Militaire, ou qui doivent y séjourner.

ARTICLE I.

Les bâtimens de commerce peuvent, sans aucune formalité préalable, traverser le port militaire, du coup de canon de diane à celui de retraite, si le port n'est pas consigné. Ceux venant du bas de la Charente sont seulement tenus de s'arrêter à l'avant-garde, pour prendre

le pilote de la station intérieure, s'il se présente. Si ce pilote ne se présente pas, le pilote de la station extérieure conservera la direction du bâtiment jusqu'à la Cabane-Carrée, et même jusqu'à Charente, s'il n'est pas relevé à la Cabane-Carrée

ARTICLE 2.

Les postes-vigies de la rade et de la rivière doivent signaler exactement, à la direction du port, les bâtiments qui remontent ou qui descendent, afin que celle-ci puisse faire consigner le port militaire si des mouvements intérieurs l'exigent, ou s'il y a encombrement.

Les pilotes doivent, de leur côté, observer avec soin la tour Saint-Louis, afin que, si le port militaire est consigné, ils puissent faire mouiller à temps les navires qu'ils conduisent.

Avant de mettre les bâtiments en mouvement, pour la descente, les pilotes de la station intérieure préviennent la direction du port, soit en y venant eux-mêmes, soit par le télégraphe, s'ils résident à Charente, afin de savoir si le passage sera libre.

ARTICLE 3.

Tout bâtiment du commerce qui remonte ou qui descend la rivière doit s'assurer, avant de s'engager dans le port militaire, si le pavillon de consigne qui interdit le passage de ce port, n'est pas hissé à la mâture et à la tour Saint-Louis. Ce pavillon est blanc, avec carré rouge au milieu.

ARTICLE 4.

Les bâtiments en mouvement dans la rivière sont signalés par la tour Saint-Louis, de la manière suivante :

A la montée au moyen de 1, 2, ou 3 pavillons rouges, selon le nombre des navires, s'il s'agit de navires à vapeur ; ou de 1, 2, ou 3 pavillons à

damier rouge et blanc, selon le nombre des navires, s'il s'agit de navires à voiles.

A la descente, le pavillon de pilote est inférieur, soit au pavillon rouge, soit au pavillon damier rouge et blanc, selon que les bâtiments qui descendent sont à vapeur ou à voiles.

A la montée, les pavillons sont hissés quand les navires sont auprès du Port-des-Barques ; ils sont amenés quand les navires sont devant Soubise.

A la descente, les pavillons sont hissés quand les navires démarrent de Tonnay-Charente ; ils sont amenés quand ces mêmes navires sont devant les moulins de Fichemore.

ARTICLE 5.

Les pilotes de la station intérieure sont autorisés, en tout temps, à monter à la tour Saint-Louis, pour s'assurer du point précis où se trouvent les bâtiments dont ils ont à prendre la direction à la montée.

Ils peuvent réclamer, s'il est nécessaire, l'assistance des bâtiments ou des pontons, et faire des observations si le passage libre de la rivière leur paraissait trop engagé.

ARTICLE 6.

Les bâtiments à vapeur et les bâtiments à voiles ayant le vent favorable, doivent toujours franchir le port militaire à contre-courant.

Les bâtiments à voiles qui se laissent dériver doivent se tenir, l'avant au courant, avec un bout de chaîne traînant sur le fond et avec des amarres.

Les bâtiments à vapeur destinés pour le bassin du commerce sont exceptionnellement autorisés à traverser le port militaire avec la fin du flot, dans ce cas, ils sont obligés d'avoir à l'arrière une ancre à jet en mouillage, avec un grelin. Une bouée doit être frappée sur ce grelin.

Si une circonstance imprévue forçait le bâtiment à laisser tomber cette ancre à jet, afin d'éviter, soit des avaries contre un des navires du port, soit un échouage, ce grelin serait filé par le bout, lorsque le bâtiment pourrait continuer sa route. L'ancre et le grelin serait relevés ensuite, par les soins de la direction du port et remis à leur propriétaire.

ARTICLE 7.

Il est interdit aux bâtiments du commerce français ou étrangers de séjourner dans le port militaire, s'ils n'y sont appelés pour prendre ou débarquer un chargement. Ceux qui, surpris par une circonstance fortuite, seront forcés de s'arrêter, s'amarreront le long d'un des pontons ; la tour Saint-Louis préviendra la direction du port de l'arrêt du bâtiment dans l'arsenal. Le gardien du ponton sur lequel se sera amarré le navire, veillera à ce que personne de l'équipage ne communique avec la terre, jusqu'à l'arrivée de l'agent de surveillance de la direction des mouvements du port.

ARTICLE 8.

Il est interdit à tout bâtiment de commerce traversant le port militaire de s'y arrêter, s'il n'y est contraint par une circonstance de force majeure, et de communiquer, par quelque moyen que ce soit, avec les bâtiments ou les embarcations du port.

Les gardiens, gendarmes et autres agents de service aux postes de l'avant-garde, de l'arrière-garde et du raz, doivent veiller à l'observation de cette consigne.

En cas de contravention, les gardiens, gendarmes ou agents de ces trois postes se préviendront mutuellement, au moyen d'un pavillon bleu à croix blanche. Le bâtiment qui aura contrevenu serait, le cas échéant, sommé de s'arrêter à sa sortie de

l'arsenal, pour que des investigations soient faites à bord. Si le bâtiment refusait d'obtempérer à la sommation qui lui aurait été faite, l'autorité prendrait des mesures pour que les investigations aient lieu, suivant le cas, soit en rade de l'île d'Aix, soit au poste d'amarrage du navire.

ARTICLE 9.

Il n'est permis à aucun bâtiment, à aucune embarcation du commerce, de passer par le port militaire, après le coup de canon de retraite et avant le coup de canon de Diane.

ARTICLE 10.

Aucune embarcation de commerce appartenant, soit à un navire mouillé en dehors des limites de l'arsenal, soit à des particuliers, ne peut entrer dans le port militaire, sans une autorisation spéciale du major-général.

Les embarcations qui obtiendront cette autorisation seront visitées à l'entrée et à la sortie, par les gardiens des postes-flottants.

ARTICLE 11.

Les bâtiments du commerce qui séjournent dans le port militaire, pour y prendre ou pour y débarquer un chargement, ainsi que ceux qui, ne faisant que traverser, sont obligés de s'amarrer pour y attendre le retour de la marée ou pour tout autre motif, ne peuvent démarrer qu'après avoir été visités par un portier désigné par le gardien-major, un maître de la direction du port et un gendarme pris à la porte du Soleil.

Si le bâtiment est à vapeur, la direction des mouvements du port enverra à son bord un pompier pour s'assurer que les feux sont éteints.

Dans le cas où un bâtiment à vapeur, forcé de s'arrêter le long d'un ponton dans le port militaire

désirerait conserver les feux au fond des fourneaux, il sera tenu de recevoir à son bord un pompier pour la surveillance de ces feux.

La rémunération due au pompier, pour ce service extraordinaire, est fixé à la somme de 0 fr. 33 c. par heure de présence à bord. Les fractions d'heures inférieures à une demi-heure, seront payées 0 fr. 20 c. et celles au dessus d'une demi-heure, comme l'heure entière.

ARTICLE 12.

*Marine Department, Board of Trade,
Whitehall Gardens, December 11, 1872.*

THE Board of Trade have received through the Secretary of State for Foreign Affairs a Despatch from Her Majesty's Minister at Madrid inclosing the following Order of the Ministry of the Interior respecting Quarantine :—

Extract from Madrid Gazette of 2nd December, 1872 :—

“ In view of the questions asked of this Ministry by various provincial health authorities as to the means of deciding the primitive starting point of ships, for the effects of Articles 30 and 37 of the Law, and other orders of the department, the King has ordered the fulfilment of the following rules :—

1. “ As a general rule, for sanitary purposes, by primitive starting point is meant the place from

which a vessel sails with cargo or ballast after having finished her voyage there.

2. "Vessels proceeding from a foul or suspected port or whose bills of health, not originally clean, become, from any circumstance, foul, shall, although they may effect unloading operations or conclude their voyage in other intermediate clean ports, preserve in principle the said compromised ports as their starting point, and their bills of health shall continue to be foul, until they perform abroad or in Spain the quarantine ordered by our Laws.

3. "The 'Direccion-General de Beneficencia Sanidad, y Establecimientos Penales,' is authorised to interpret and apply the foregoing rule as to cases similar to each other and as to special cases not applying rigorous quarantine, imposing precautionary measures, or admitting vessels to free pratique in view of their circumstances, and of the interests of public health and maritime commerce.

4. "The orders of the Direction of the Department of 27th April, 1868, 31st August, 11th and 23rd September, 1871, and 16th instant, and any other order on this subject are abrogated."

“ In accordance with what is laid down in the Royal Order of to-day's date with respect to the primitive starting point of ships for the application of health measures, I have considered it expedient to determine that any ship hailing from a foul port, or one that is suspected (notoriously compromised, Article 36 of the Law, and Rule 12 of the Royal Order of June 6 of 1860) or that may have been admitted to pratique in other intermediate ports of a like nature, and which may afterwards unload (such discharge being complete) in a clean port, without performing the quarantine required by our laws, and which, not having communicated subsequently with any place, either suspected or foul, shall set sail with a fresh clear

cargo, or in ballast, bound for our ports, should she arrive with a clean bill of health, in a satisfactory hygienic condition and no suspicious accident on board, will have to undergo three days of observation, with ventilation and fumigation.

“The same treatment shall be given to any ship which, leaving the ports either foul or suspected referred to in ballast, may load clean goods in a clean port, and, without having any further communication with compromised ports, may come to Spain, arriving in the state above-mentioned.”

Foreign Office, December 30, 1872.

EARL GRANVILLE, K.G., Her Majesty's Principal Secretary of State for Foreign Affairs, has received from the Right Honourable Sir E. Thornton, K.C.B., Her Majesty's Envoy Extraordinary and Minister Plenipotentiary at Washington, the following Despatch on the subject of the Epidemic among Horses in America:—

Washington,

MY LORD,

December 6, 1872.

WITH reference to your Lordship's telegram of the 27th ultimo, I have the honour to inform you, that the epidemic amongst horses, which has lately been, and still is, prevalent over a great part of this continent, seems to have had its origin, or at least to have been first particularly observed, at Toronto, in Canada, where it appeared on or about the 30th of September last. It then travelled over a great part of Canada, invaded the United States at Niagara Falls on the 11th ultimo, and has gone through a great part of this country already, having reached as far south as Galveston, in Texas. I have the honour to enclose a list of several places, both in Canada and the

United States, with the dates at which the disease has appeared in those places. These are, of course, only a few of the places which have been visited by it, and it is to be observed that wherever it appeared in towns or villages, it also prevailed in the country all round those places. The dates in the enclosed list may not be very correct; they have been gathered from the newspapers; but they will probably point out the time of the arrival of the disease within two or three days.

It is impossible to suppose that it can have been caused by any but atmospheric influences. None but these could have caused its rapid diffusion over such an immense extent of country.

It travelled from Toronto, in Canada, to Galveston, in Texas, in less than two months; and at New York, for instance, within ten days from the date at which it was first noticed there, 40,000 horses were attacked by it. That it should have spread so rapidly cannot be attributed to contagion alone, though it is not likely that, once it invaded a stable, a single horse would escape it in a greater or less degree.

The disease seems to be a catarrhal influenza or distemper, accompanied by a good deal of fever. The premonitory systems are dullness, a staring coat, a watery discharge from the nose, speedily followed by a severe hacking cough, the pulse is quickened and the mouth hot, the nasal membranes are injected, and the ears and legs are unnaturally cold, the discharge from the nose increases, becomes very thick and clammy and somewhat offensive, and of a greenish yellow colour. The breathing becomes more difficult and oppressive, and is sometimes very laboured and severe. In some of the more violent cases there is constant watering from the eyes, and when the lungs or the brain are attacked, the result is generally fatal.

The disease seizes indifferently horses in bad or good condition, in hard work or the contrary. But bad or close stables evidently aggrivate it, and horses in the country, kept much in the open air, have not suffered so much as those in the large towns.

As is usual in such cases, the treatment has been of a most varied character. As my own has been singularly successful, I may be excused for mentioning it. My five horses were attacked under disadvantageous circumstances. They came from Newburyport, Massachusetts, by road to Boston, waited eight hours on the mole to be put on board the steamer; during the voyage to Baltimore were exposed to extremes of heat and cold, and came thence by road to Washington during a violent storm of wind and rain. On their arrival here they had running from the nose and coughed, and showed evident symptoms of the epidemic, as I then only knew it by description. I clothed them well, put flannel bandages upon their legs, and kept the stable well ventilated, though not cold, but temperate. I gave them hot bran mashes with about a tablespoonful of nitre, till their bowels were sufficiently relaxed. Their oats were reduced to about a third, and were always scalded, and about the same allowance of hay was given. As the runnings from the nose became thicker and more offensive, and the cough more violent and evidently painful, their throats were rubbed with a strong embrocation, which nearly blistered them. This seemed to afford great relief. During the whole time of the running from the nose, it was constantly sponged with about one part of carbolic acid to twenty of water, which served also as a disinfectant for the stable. Contrary to the advice and practice of most of my

neighbours, I caused my horses to be gently exercised every day when it did not rain, and they seemed to experience great relief from their airing. It was during it that in coughing and sneezing they got rid of great quantities of offensive matter. In the open air they were more clothed than in the stable. During the illness they were never off their feed ; in four weeks they were well, and now they seem as if they had never had the disease. My horses were originally in good condition, but where horses had been in bad condition and hardworked, it was found necessary rather to increase than to diminish their rations of oats ; but the Indian corn which forms so great a part of the food of the working horses of this country, was considered very dangerous.

Your Lordship will perceive that my proceedings were mild, and I am convinced that such treatment, with patience, is more effective and safer than violent remedies.

But many owners were anxious to have the use of their horses as soon as possible, and had recourse to strong remedies, such as aconite and belladonna, frequently, and in some cases arsenic. Others kept the stable extremely hot and ill-ventilated. Some of the horses treated in this manner may have apparently recovered more rapidly, but they seem to have contracted other diseases, such as rheumatism, to which perhaps they will be constantly liable.

The want of horses was very irksome. The consequence was that in some of the large towns, such as New York, horses were cruelly worked when they ought to have been at rest, and many died, or were used before they had entirely recovered. In the latter case the animal was sometimes seized with dropsy. His legs first and then his whole body became immensely swollen,

and in a short time he dropped over and died. These cases were rare, but were more fatal than the epidemic itself. One case came under my observation where the horse had suffered very slightly from the epidemic, had been treated with the greatest care and even tenderness, but was seized with dropsy and died in two days.

The disease, after its first appearance in a town, seems to reach its height in from eight to twelve days, and to last for from four to six weeks, when the normal state of things seems to be re-established, with the exception of a few horses who recover more slowly. I have not yet been able to obtain any statistics, but, as far as I can judge from the newspapers and from my own observation, I should say that about ninety per cent. of the horses were attacked by the epidemic. In Washington I could find no one who could point out a single horse that had not suffered from it. Of those attacked, from three to four per cent. may have died, and of the few cases of subsequent dropsy and disease of the kidneys nearly a half were fatal. Some very valuable horses, upon whom the greatest care had been bestowed, were lost at New York and elsewhere ; but I have not been able to find out as yet the treatment to which they were subjected. I am not without hopes that some of Her Majesty's Consuls may have observed and will report upon these cases.

It has been stated in the newspapers that at one or two places cows have been attacked and have died of a similar disease. One instance is mentioned of pigs and fowls who had been allowed to be about the litter of diseased horses having been also attacked. A single case is mentioned of a man having died from the contact of the matter proceeding from a diseased horse's nose with an open wound in his hand. I have not, however,

been able to verify these statements. But if the disease should unfortunately invade England, it is hardly necessary to recommend to Englishmen great cleanliness as well as disinfectants.

It is said that the Medical Officers of the United States Army intend to prepare a report upon this interesting subject. I have no doubt that it will be a scientific and able one, and will contain valuable information as well as statistical details ; but in the meantime I have thought it right to transmit to your Lordships the above statements, derived from the newspapers and from my own observation.

I have, &c.,

(Signed) EDWD. THORNTON.

The Right Honourable

Earl Granville, K.G., &c., &c., &c.
